

WATERFALLS

1. Realrock Waterfalls

Realrock waterfalls are a highly realistic range of watercourse designed to compliment a wide range of hard landscaping features. The attractive realistic stone finish has been sculpted from real rocks and the colour blends well with many of the popular ranges of slabs, stone and walling. Manufactured from a strong yet light mix of resin and glass fibre. A smooth plate is provided at the back of each watercourse to allow the fitting of an optional multi hose tail connector providing a dramatic and convenient water course inlet from the pump. All can be interconnected and each has a lip to ensure a water tight connection to the next piece. Each waterfall is individually bubble wrapped and bar coded.

DESCRIPTION	CODE
A Realrock header pool	1008952
B Realrock waterfall	1008969
C Realrock stepped stream	1008976
D Realrock right curve	1008983
E Realrock left curve	1008990

2. Realslate Waterfalls

Realslate waterfalls are a highly realistic range of water courses designed to compliment a wide range of hard landscaping features. The attractive realistic slate finish has been sculpted from real slate. Manufactured from a strong yet light mix of resin and glass fibre. A smooth plate is provided at the back of each watercourse to allow the fitting of an optional multi hose tail connector providing a dramatic and convenient watercourse from the pump. All can be interconnected and each has a lip to ensure a water tight connection to the next piece. Each waterfall is individually bubble wrapped and bar coded.

DESCRIPTION	CODE
A Realslate header pool	1009003

DESCRIPTION	COLOUR	SIZE (CM)	CODE
Waterfall	Slate	71x63x25	1006484
Waterfall	Cotswold	71x63x25	1006491

All dimensions are approx.

Sales Idea
 For increased sales, why not set up and run an Aquastones display. This could also feature a variety of Blagdon Pumps. Ask your Interpet Sales Representative for more details.

WATERFALLS

Cotswold Waterfalls

Natural Waterfalls

A new range of well designed and finished durable HDPE moulded watercourses. Available in Cotswold and Slate colour finishes. The weathered finish provides good initial consumer appeal and the ability to blend in and look natural when aged and softened with decorative planting.
