DATE: Spring 2007

PRODUCT:

Blagdon Midipond Filters

### **ALL YOU NEED FOR A CLEAN AND HEALTHY POND**

**Blagdon are delighted to reveal two new, larger filtration systems - the Midipond MPF10,000 and MPF14,000. With all the features of their successful little brother, the Minipond Filter, and much more!...**

The Midipond Water Garden Filtration System offers the next generation of sophisticated, professional pond technology in a flexible, easy to use package. The unique seven stage filtration process has been specifically designed to provide a beautifully clear and healthy pond with a minimum of maintenance and at an affordable price.

Designed for convenient installation, most effective filtration and lowest maintenance, the Midipond Filter has a plethora of superb features that lead to Blagdon's confidence to offer a Clearwater Guarantee.

### **EASY TO CLEAN, EFFECTIVE, LOW MAINTENANCE 7 STAGE FILTRATION SYSTEM:**

1. Built in Green Water UVC light guarantees algae free clear water.
2. Venturi Aeration Chamber adds bubbling oxygen rich water to the filter, creating the ideal environment for friendly bacteria that keep ponds healthy.
3. Easy to clean, lift out, Hydroscreen Stainless Steel Pre Filter, catches large waste and debris.
4. Open Cell Foam in three reducing grades catches dead algae, dirt and waste.
5. Professional Ceramic Bio Media supports large bacteria populations, enabling high fish stocks and supports healthy pond life.
6. Replaceable Polymer Wool Pad polishes the water, quickly removing particles that create cloudiness.
7. Replaceable Carbon Impregnated Foam removes chemical pollutants for sparkling clear water and superb visibility.

## ALL YOU NEED FOR A CLEAN AND HEALTHY POND

Midipond Watergarden Filtration Systems offer sophisticated professional pond technology in a flexible easy to use package. The unique seven stage filter process has been specifically created to provide a beautifully clear and healthy pond with a minimum of maintenance.

**1**

Built in green water clarifier UVC light guarantees algae free clear water.

Multi hose inlet allows use with all popular pumps and hose sizes.

**2**

Venturi aeration chamber adds bubbling oxygen rich water to the filter, creating the ideal environment for friendly bacteria that keep ponds healthy.

**3**

Easy to clean, lift out, Hydroscreen stainless steel pre filter, catches large waste and debris.

**4**

Open cell foam in three reducing grades catches dead algae, silt and waste giving a crystal clear pond.

**5**

Professional Ceramic Biological Media supports large populations of friendly bacteria, enabling high stocking levels of fish and healthy pond life.

Large hinged lid provides easy access for cleaning.

Replaceable polymer wool pad polishes the water quickly removing particles that create cloudiness.

**6**

Replaceable carbon impregnated foam removes chemical pollutants for sparkling clear water.

**7**

Optional 2, 3 or 4 x 40mm (1 1/2") filter outlets capable of handling high flow rates for spectacular waterfalls and larger pond filtration requirements.

UNIQUE 7 STAGE FILTER PROCESS  
FOR A BEAUTIFULLY CLEAR  
& HEALTHY POND
